

AUGUST 17-21, 2020 IUOTA/IUSTA CONFERENCE 2020

Join other Overhead & Underground utility safety and training professionals at the annual sharing of free presentations and knowledge in **Long Beach California**. The primary purpose of the IUOTA organization is to promote increased safety, efficiency, and effectiveness of training for Overhead and Underground personnel through the exchange of ideas and training information. Alongside IUSTA to add substation utility experts. The scope of training activities includes safety, communications, operations, maintenance, general work practices, and policies related to training.

Please reach out to Mark Taylor (mtaylor@primaryeng.com), Patrick O'Brien (PObrien@carrduff.com), Mark Todd (mtodd@electricities.org), or Commodore Sinclair (commodore.sinclair@duke-energy.com) for more information.
